Secure Lifetime GUL 3... designed to deliver guaranteed protection and client loyalty.

Clients have always loved the concept of certainty. In today’s world, they may appreciate it even more. Certainty for their families and businesses. Certainty for themselves. Certainty in the face of volatile markets and changing needs.

Secure Lifetime GUL 3 provides the long-term guarantees that clients are asking for. It’s a new class of GUL with a unique combination of features and benefits. And it’s designed to provide your clients with security and peace of mind – whether they die too soon, live too long or get sick* along the way.

Ensure your client knows their family and business is protected if they die.

With Secure Lifetime GUL 3, the death benefit can be guaranteed – regardless of the policy’s cash value – assuming the required premiums have been paid. Clients can be assured that their family will be protected, their business will live on or their charitable interests will be served – all thanks to the tax-free proceeds from their policy. As their needs change or their income grows, they can even choose to increase the death benefit, subject to satisfactory evidence of insurability.

The flexible policy design empowers you to structure a guaranteed premium that matches your client’s personal needs and budget. They can choose the number of years or age to which they want the death benefit guaranteed. Then, they can elect to pay premiums over the life of the policy, pay additional premium to shorten the payment period or simply pre-fund the coverage guarantee.

Lock-in values your client can use in the future.

Secure Lifetime GUL 3 provides:

Guaranteed minimum cash value available through full or partial surrenders. Clients won’t have to worry about market performance or volatility with a guaranteed minimum cash value.

Guaranteed return of premium with two built-in ROP opportunities should your clients’ needs change or they no longer need coverage, the new Enhanced Surrender Value Rider provides two options for surrendering the policy and recouping paid premiums – 50 percent at the end of year 20 or 100 percent at the end of year 25, capped at 40% of the policy’s lowest specified amount.

*In this context, “sick” means having a Qualifying Chronic Illness.
Lock-in options that provide your client a guaranteed income.

In addition to the base policy guarantees, Secure Lifetime GUL 3 offers two riders that provide valuable guaranteed benefits while your clients are still living. That’s right! They can be beneficiaries of their own policies.

Accelerated Access Solution®
If a client suffers a qualifying chronic illness, at any time during the life of the policy the Accelerated Access Solution rider can provide access to a portion of the death benefit through pre-determined monthly payments – either for as long as they’re sick or until the available death benefit is exhausted. At death, the remaining benefit will be paid to the beneficiary.

Lifestyle Income Solution®
There’s no question that Americans are living longer, and the Lifestyle Income Solution rider may help your clients make those extra years more satisfying. It enables them to translate the death benefit into a stream of supplemental income that can be used for any purpose. These payments are typically tax-free up to the amount of cumulative policy premiums. Once again, any remaining death benefit will be paid to the beneficiaries.

You have a powerful and unique story to tell with Secure Lifetime GUL 3!

• It helps to deliver the security clients are asking for
• It helps to provide protection for their families
• Long-term guaranteed values
• A return of premium for any reason
• Income for their golden years, and more

1 Accessing cash values may affect the continuation guarantee.
2 Internal Revenue Code Section 1035 and associated rules are complex in nature. The policy owner may incur surrender charges from the previous policy, be subject to new sales and surrender charges and other limitations with the new policy. It is highly recommended that the policy owner consult a tax advisor prior to exchanging a policy.
3 Subject to the policy’s terms and conditions.
4 A change in the policy will not be permitted if the change would result in the policy not meeting the definition of life insurance under Section 7702 of the Internal Revenue Code. The policy owner should consult a tax advisor to determine the effect of these provisions.
5 The reduction in specified amount will be subject to the same guidelines and restrictions as outlined in the policy form and resulting death benefit amount must be no less than $90,000, $45,000 for New York.
6 Except in Florida where internal rollover money is not protected from premium load.
7 Policy loans and partial withdrawals will reduce the death benefit and cash value and could reduce the duration of coverage. Partial withdrawals may be taxed as regular earnings. The policy owner should consult a tax advisor to determine the effect of these provisions.
8 See the riders for complete details. Not all riders are available in all states. There may be a charge for each rider selected. Adding or deleting riders and increasing or decreasing coverage under existing riders can have tax consequences. Policy owners should consult a tax advisor prior to exchanging their policy.
9 IRS caps the maximum daily rate each year. Subsequent years may be higher.
10 Set so that someone with a 100% Basis that initiates the guaranteed benefit at age 85 with a Withdrawal Benefit Factor of 1 can have a $500 payment.

Important Consumer Disclosures Regarding Accelerated Benefit Riders

An Accelerated Death Benefit Rider (ABR) is not a replacement for Long Term Care Insurance (LTCI). It is a life insurance benefit that gives you the option to accelerate some of the death benefit in the event the insured meets the criteria for a qualifying event described in the policy. The rider does not provide long-term care insurance subject to California insurance law, is not a California Partnership for Long-Term Care program policy. The policy is not a Medicare supplement.

ABRs and LTCI provide different types of benefits. An ABR allows the insured to access a portion of the life insurance policy’s death benefit while living. ABR payments are unrestricted and may be used for any purpose. LTCI provides reimbursement for necessary care received due to the inability to perform activities of daily living or severe cognitive impairment. LTCI coverage may include reimbursement for the cost of a nursing home, assisted living, home health care, homemaker services, adult day care, hospice services or respite care for the primary caretaker and the benefits may be conditioned on certain requirements or meeting an elimination period or limited by type of service, the number of days or a maximum dollar limit. Some ABRs and all LTCI are conditioned upon the insured not being able to perform two or more of the activities of daily living or being severely cognitively impaired.

This ABR pays proceeds that are intended to qualify for favorable tax treatment under section 101(g) of the Federal Internal Revenue Code. The federal, state, or local tax consequences resulting from payment of an ABR will depend on the specific facts and circumstances, and consequently advice and guidance should be obtained from a personal tax advisor prior to the receipt of any payments. ABR payments may affect eligibility for, or amounts of, Medicaid or other benefits provided by federal, state, or local government. Death benefits and policy values, such as cash values, premium payments and cost of insurance charges if applicable, will be reduced if an ABR payment is made. ABR payments may be limited by the contract or by outstanding policy loans.
